

DO YOU LOVE ELEPHANTS?

That may be because elephants are much like humans. They are sentient beings who thrive on contact with others of their own kind. They Play, They Love, They Mourn.

Physically and emotionally, they need to be together with other elephants. *Google: Elephant Families.*

We naturally respond to these magnificent creatures. But we are not treating them well!

Elephants are suffering in the WILD. World-wide populations are declining at an alarming rate due to poaching, the ivory trade, and human conflicts. *Google: Elephant Poaching*

Elephants are suffering in CAPTIVITY. Elephants across the globe are also being captured for human use and profit in circuses, zoos, tourism, temple festivals and logging.

Although wild elephants can live well into their 60's or 70's, most captive elephants die in their 30's or 40's. And their lives are a misery.

Google: Echo the Elephant, Circus Abuse, Abuse of Elephant Riding, Elephant Abuse in Zoos.

In the wild, elephants are poached ...

in captivity, they are mistreated.

Elephants need our help!

CAPTIVITY: CRUEL FOR THEM ...

Captive elephants are often kept alone and always in totally unnatural conditions. They develop debilitating arthritis and foot infections, which can lead to early death, and are stressed from solitude, poor diet, and lack of enrichment. They are prevented from breeding naturally and enjoying any independence.

Traveling elephants spend hours in small trailers or boxcars, with little or no exercise.

Circuses and zoos often claim they are protecting the future of wild elephants. ***But captivity is not the answer!***

RISKY FOR YOU....

Circuses almost always have inadequate barriers between the elephants and the public. A flimsy fence will not hold back an elephant if that animal is stressed by the noise of the crowd or abusive handling.

There have been numerous deaths and serious injuries to humans caused by elephants who have reached their limit of abuse and pain.

Google: Tyke the elephant.

Elephants are known to carry tuberculosis (TB), which can be transmitted to humans. TB testing is not required by law! Current laws do not protect the public and are rarely enforced.

Please think carefully before putting your child on the back of an 8,000-lb elephant!

TRUE SANCTUARY FOR ELEPHANTS

The mission of Save Nosey Now, Inc., is ***to provide education, intervention and litigation that will ultimately lead to sanctuary for captive elephants in circuses and zoos.***

There are about 230 zoo elephants and 70 circus elephants in the US today. We are working to improve their lives by ending all elephant captivity. But once they have been "broken," elephants cannot return to the wild. The only answer is retirement to true sanctuary.

Accredited sanctuaries give elephants room to roam and forage and an opportunity to be part of an elephant family again. Excellent medical and personal care is provided as the elephants live their independent lives. Most importantly, there are no more rides, performances, or abuse.

All captive elephants need and deserve TRUE SANCTUARY.

PROGRESS AND VICTORIES

Elephants do not perform because they want to, they perform because of FEAR of pain and years of abuse. The public is demanding change...and it is working.

Ringling Bros. and Barnum & Bailey Circus has closed due to public awareness, declining attendance, and high costs of operating.

Cities across the US have banned animal circuses or use of the bull hook.

Zoos are coming under increasing scrutiny of their claims regarding conservation and education.

Social media and technology are making it much harder to hide animal abuse.

Working together, we can give all captive elephants the life they deserve. Join us!

SAVE NOSEY NOW, INC.

Save Nosey NOW! was established in 2014 as a grassroots volunteer group with a mission to monitor and free the circus elephant, Nosey, to an accredited sanctuary.

Known throughout the world, Nosey has become the “poster child” for neglected and mistreated captive elephants. Yet despite numerous complaints and ongoing violations of animal welfare laws, the USDA and state agencies have failed to protect her.

Realizing that a new approach was needed, the group incorporated as a nonprofit organization in 2017. Save Nosey Now, Inc. is committed to collaboration, creative action (including litigation), fact-based education and revealing the truth behind the horrific lives of all captive elephants.

WHAT YOU CAN DO TO HELP

DONATE to further our mission of education, intervention and litigation. Save Nosey Now, Inc., is an all-volunteer 501(c)(3) charitable organization. Your donations are tax deductible to the extent allowed by law.

NOT A CARNIVAL RIDE

SUPPORT local and national legislation to ban all exotic animals from traveling circuses. **Google: TEAPSPA**

DON'T GO to the zoo or patronize circuses using animals as entertainment.

NEVER ride an elephant ... anywhere in the world!

WATCH for traveling elephants giving rides in flea markets, small carnivals, or festivals. If you see an elephant in this type of venue, please contact us ASAP. Your photos and eyewitness testimony can help!

SHARE what you have learned about elephants with others and speak out against abuse. Knowledge is power!
